

Rainbow Emergent Reader Book

Directions: Print this emergent reader book and assemble it. For best results, print to a front and back of one sheet of paper. Then, to assemble, cut the pages along the horizontal middle of each page. Use the page numbers for reference as you fold in half. Your child can color the pictures.

Your child will need water colors or crayons to color in each item in the book.

Read the emergent reader book together. Your child will gain reading confidence the more he or she reads the book. Help your child recognize the repetition of words. He or she can use the illustrations if they don't have the skills to sound out new words.

This printable book is for personal use only.

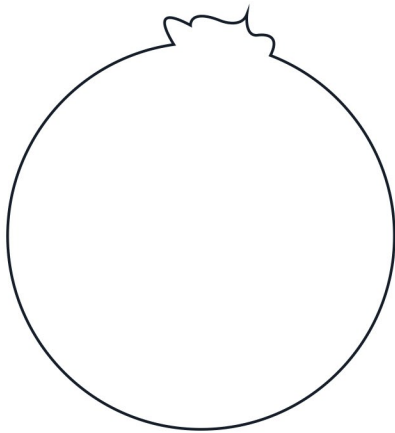

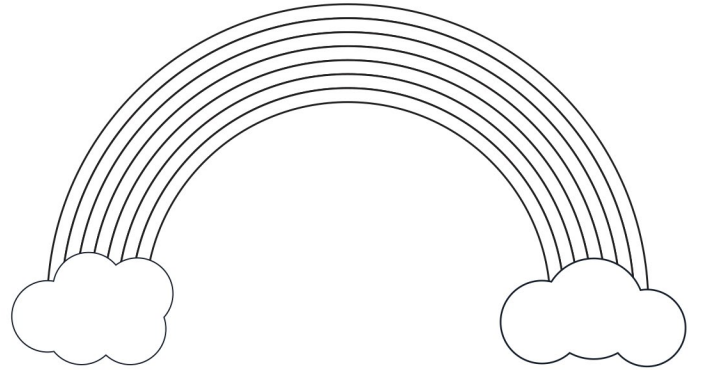

My Rainbow Book

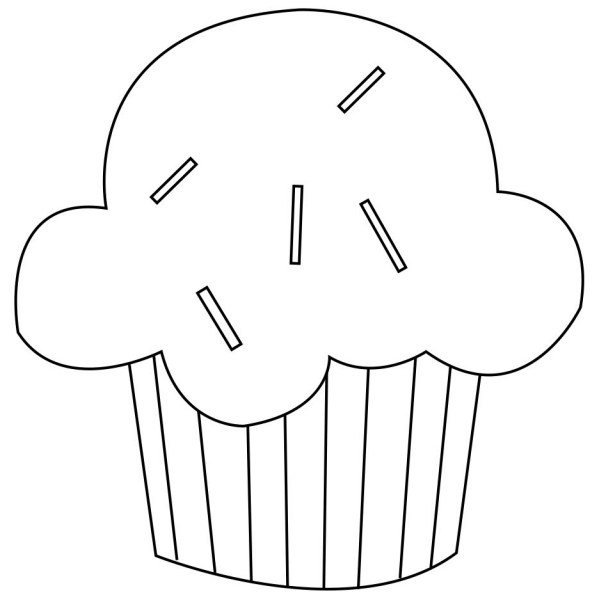

An emergent reader
