

Deep Sea Marshmallow Pops

Ingredients:

- 1 Marshmallows
- ½ C. White Candy Melts
- Goldfish Crackers
- Pearl Sprinkles
- Blue Food Coloring
- Paper Straws/Cake Pop Sticks

Directions:

- Cut your paper straws or cake pop sticks in half, and place one into the center of each marshmallow.
- In a small cup, prepare the candy melts. You may need to add in a bit of vegetable oil to get a thinner consistency so the candy drips off of the marshmallows.
- Add a few drops of blue food coloring to the candy melts, until you reach the color you like.
- Quickly dip each of the marshmallows into the candy, and place a Goldfish cracker and a few pearls for bubbles toward the bottom of the marshmallow while the candy is still wet.
- Set aside to dry for about 15 minutes, and enjoy!
